Hiring team, Tidegate Analytics

Re: Forward Deployed Engineer

Eight weeks from contract to live deployment is a rhythm I recognize: my open-source classifier went from idea to launch in nine, and my internship had a hard demo every Friday.

Discovery is the part I enjoy. At Halespring I interviewed merchandising stakeholders before writing a line of the model, and the SQL I would use at your customers is the SQL I have TA'd.

I travel happily, listen well, and leave dashboards people keep using.

Sincerely,

Jane Doe
